

BARNARD CASTLE SCHOOL

PREP TIMETABLE 2019-20

It is a good idea for students to transfer these details into their planners. General queries about prep (homework) should be made initially to tutors. Some practical preps are difficult to set on a regular basis - pupils should expect project work in Art and Design Technology, and in Music there is an expectation that instrumental practice will form the basis of weekly work with occasional revision and project work for all sets. Owing to the complicated structure of our timetable, it is important to remember that prep should be **completed** on these evenings, although subject teachers **may need to set it on a different day of the week**.
