science is stranger than myth

Wednesday Challenge

Mrs Gibson knows a lot of amazing things about living organisms – but she always likes to find out about more...

Today's challenge is open to all. Simply email Mrs Gibson with details and pictures of the weirdest living organism adaptation you can find.

Merits will go to any students who can make Mrs Gibson say 'Wow – I didn't know that, that is really interesting!'

Email your entries to rkg@barneyschool.org.uk
